Durum wheat pasta

Spaghetti

The classic well known long shaped pasta. Perfect with creamy condiment, with few exceptions. It's also the shape used in many traditional recipes.

Penne

One of the most used short shaped pasta. To be chosen preferably with condiments that come in pieces, cubes and similar.

Homemade egg pasta

Tonnarelli +25\$

Its a classic long shaped egg pasta. Have a squared cross-section that gives a more consistent sensation. Fits better creamy sauces.

Fettuccine +25\$

Famous long shape egg pasta. Its width makes it ideal for tasty condiments. The classic pairing is with all the ragù, like the bolognese one

Maccheroni +25\$

Short shaped, its structure makes it fit almost every kind of condiment, except the most delicate.

Casarecce +25\$

Short shaped, a great alternative to maccheroni, in few cases even better.

Homemade wholewheat egg pasta

Maccheroni integrali +35\$

Like maccheroni but made with wholewheat, full of healthy fibers. The side effect is that this option alters the original taste of the dish.

Tonnarelli integrali +35\$

Like tonnarelli but made with wholewheat, full of healthy fibers. The side effect is that this option alters the original taste of the dish.

Special pasta

Gnocchi +35\$

Potato and flour dumplings

Ravioli +50\$

Egg pasta with a filling of spinach and ricotta cheese

These are the pasta shapes available in our restaurant.

As you can read in their descriptions, every kind fits well only with some recipes.

For this reason, under every dish you will find, in [blue](#), the kinds that you can choose.

In **bold** are the recommended ones.

So, please, don't ask for a combination that is not in that list because, for the reasons given, we will not provide it. (e.g. don't ask for "spaghetti bolognese" or "maccheroni alla puttanesca". We will not do it.)

Please notice that some kinds of pasta have an additional price that must be added to the normal dish price.

Pomodoro e basilico
